I'm Tanya! A Creative Technologist and Interaction Designer. I collaborate, adapt, and execute — working across mediums to build systems that are both expressive and intentional. My process is fluid, shifting between code, design, and prototyping depending on what each idea demands. I'm interested in how people interact with systems, and I use that as a starting point to shape thoughtful, engaging experiences.

EDUCATION

(2011 - 2020)

LEGACY SCHOL BANGALORE
Cambridge IGCSE Math, Chemistry, Biology, Physics, Fine Arts

(2021 - 2023)
